FCC ID bridge: EW780891300
FCC ID lamp: O3M9290002579X

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the device and receiver

CLEANING AND MAINTENANCE:

Do not clean the device when it is on and connected to the power supply.

To avoid scratching the device, clean only with a soft dry cloth.

Do not use cleaning agents to clean the device.

Manage in accordance with disposal laws in your area.

"Hue Personal Wireless Lighting" is a trademark owned by Koninklijke Philips Electronics N.V.

IC Certification:

- LED lamp: company number: 10469A, UPN: 2579X.
- ZigBee IP bridge: company number: 1135B, UPN: 80891300.

This Class B digital apparatus complies with Canadian ICES-003.

This digital apparatus does not exceed the class B limits for radio-noise emissions from digital apparatus as set out in the Radio Interference Regulations of the Canadian Department of Communications.

NOTICE: Changes or modifications made to this device not expressly approved by Philips Lighting Company (USA) and Philips Electronics Ltd (Canada) (collectively "Philips") may void the U.S. FCC and Canadian authorization to operate this device.

- Connect the device into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/television technician for help

WARNINGS AND CAUTIONS:

- The bulb is suitable for use in open luminaries (fixtures).
- The bulb is not suitable for totally enclosed fixtures.
- The bulb is not intended for use with emergency exit fixtures or emergency lights.
- The bulb is not compatible with photo controls, occupancy sensors, or timing devices unless specifically designed for hue.
- The bulb is not suitable for use with dimmers.

Wireless Specification:

Wireless RF mode frequency band: 2400~2483.5 MHz
Wireless communications protocol: IEEE 802.15.4
Operating channels: channels 11 – 26

The advanced interface module complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against

- Risk of electric shock – Do not use device where directly exposed to water.
- Before replacing, turn off power and let the bulb cool to avoid electrical shock or burn.
- The device is for indoor use only.
- Do not use the device in wet locations, e.g. bathrooms or outdoors.

OPERATING INSTRUCTIONS:

- This device is not a toy designed to be played with by children.
- Do not place the device on hot surfaces.
- For safety reasons, do not open device, which will also void the warranty.
- Only use the adaptor supplied; using a different adaptor can damage the device.
- Use the bulb only in a socket rated for this bulb.

Environmental specification:

Temperature (operation): 0-35 °C
Temperature (Storage): -25-60 °C
Relative humidity: 5-95 % non condensing
Standby power: 0.45 W per lamp

CERTIFIED REFURBISHED EQUIPMENT WARRANTY

This equipment is covered by 90-day warranty that commences on the date of purchase. Proof of purchase in the form of original order number and date of purchase (located on the receipt or packing slip) must be provided in order to initiate warranty support

The warranty covers parts and labor required to repair the unit and any electrical components (including, but not limited to, control boards, wiring, etc) from defect or failure under normal use conditions. It also includes free return shipping to any location within the continental US. You must pay to ship the unit to our repair center if necessary.

The warranty does not cover regular maintenance, normal wear & tear and issues that are a direct result of misuse (including, but not limited to, water damage, outer body cracked / broken) or lack of proper maintenance.

Additionally, shipping to Alaska, Hawaii, Puerto Rico and APO/military address or outside of the US is not included; in these cases, you are responsible for shipping costs in both directions.

We will primarily troubleshoot the issue over the phone, so contacting us when you are in front of the unit and able to perform basic actions is important. If we are unable to resolve the issue over the phone, you will be provided information on how to deliver your unit to our repair center.

Support Hours: Mon – Fri 9am – 4pm EST | 908-558-5204 | warranty@shopeei.com
